Did you know?

Dogs will put just about anything in their mouths, so be careful when storing harmful substances like pesticides, cleaners, and antifreeze. And don't forget to keep hazardous substances away from your feline friends, too!

Dear **Patches**,

We offer a 10% discount on vaccines & annual exams when given on time!
Our records indicate that you are due for the following important health services:

• **EXAMINATION - ANNUAL 10/12/2008**

You're 1 year old! You're in the prime of your life, and it can be tempting to skip some of your visits to us. But now that you're an adult dog, regular visits are an essential part of your wellness care. In addition to providing you with the wellness services that will keep you happy and healthy, we want to make sure you're protected from fleas, heartworms, and intestinal parasites.

Sincerely,

Your friends at Your Veterinary Practice

Manage your pet's health online!

Visit your Pet Portal to learn more about your pet's health needs and communicate with us online. Getting started is easy! Visit our website and follow the directions to log in with your telephone number and this PIN:

Your health recommendations:

EXAMINATION - ANNUAL: This is the core of your wellness care. We'll give you a full physical checkup, check your weight and observe your demeanor. We'll also discuss your care and needs with your caretaker, including any recent changes in behavior, to help keep you feeling fit!

Keeping your recommended health services up to date is a very important part of keeping you healthy and happy. Please have your caretaker contact us to set up your next appointment.
