Dear **Patches**

We offer a 10% discount on vaccines & annual exams when given on time!

Our records indicate that you are due for the following important health services:

- **RABIES CANINE 3 YEAR BOOSTER 10/11/2008**

You're 10 years old! Now that you're officially a senior dog, you may have slowed down but you're still finding much to savor in your golden years. Because you are now aging much faster than your human companion, we strongly recommend visiting us more than once a year so we can keep a close eye on your health. From time to time we may recommend blood tests that can disclose problems before they show up on even the most thorough physical exam.

Sincerely,

Your friends at Your Veterinary Practice
